

"LAST DAYS OF POMPEII" AT THE AMERICAN TODAY

Scene from George Kleine's "Last Days of Pompeii."

WITHOUT doubt the most dramatic event in the history of the world was the destruction of Pompeii in 79 A. D. by a terrific eruption of the volcano of Mt. Vesuvius. Fifteen years previous this delightful city on the shore of the Bay of Naples was rudely shaken and partially destroyed by an earthquake and the inhabitants were just recovering from the effects of it and rebuilding their public buildings and beautiful homes when the rage of Vesuvius was vented upon them.

The volcano for hours poured forth volumes of smoke, hot flames shot up to the heavens and a steady downpour of clouds of hot dust, stone and lava kept falling on the doomed city until it was buried under twenty-eight feet of cinders, stone and lava, and so completely obliterated that all traces of its location even were lost for nearly seventeen centuries. Many of the inhabitants escaped, but a larger percentage perished. The eruption was accompanied by frequent earthquakes, and to add to the horrors a terrible storm raged for hours. It happened while most of the inhabitants were attending the games at the amphitheater and came upon them so suddenly they were almost paralyzed with fear. The city was shrouded in so that thousands who sought escape by means of it in their superstitious fear returned to the city, only to be destroyed by the food, poison and vapors of the air and hundreds of other agents of death provoked by the eruption.

Don't waste heating dollars

The heat-making value of a pound of coal is as fixed as is the number of cents in a dollar. Whatever heat-value you get from coal in room-comfort depends on how you burn it—how you extract the heat. You can shovel much coal into old-fashioned heaters, yet most of the heat-making gases will pass up the chimney unconsumed—never get your money's worth. But, you can have all the available heat from every ounce of coal distributed into the rooms, just where and when needed, by an outfit of

The deep, large fuel-chamber of an IDEAL Boiler is one of the strong features for producing fuel savings—it offers best conditions for extracting heat.

AMERICAN & IDEAL RADIATORS & BOILERS

A deep, slow fire is easily proven best as compared with the shallow firepots of old-fashioned heating methods—just as a big cake of ice which fills the refrigerator box gives far steadier, more economical results than you get from frequently throwing in a handful of cracked ice. The big IDEAL fire-chamber extracts full value of your coal

What the IDEAL Boiler starts in heating economy the AMERICAN Radiators finish by distributing warmth in all rooms, evenly, throughout every hour of the day, just sufficient for differing requirements of mild, medium and severe weather. Besides, there is far less house-labor, because no soot and ash-dirt go to the rooms, as with old-time devices.

To save heating dollars for the public is one of the prime motives of our testing laboratories in United States, France and Germany. They tell our foundries how to construct heating outfits to get reliable results and thorough economy. The users of our outfits get the effects in positive heating and full returns for the dollars spent for coal.

If you are weary of ever-lasting blackening, repairing and coaxing, discard at once the old way and put in an IDEAL-AMERICAN outfit at this season, when you get best attention and most favorable prices. Send for free booklet—"Ideal Heating" which explains how to get full returns from every heating coal bill.

One charging of coal in an IDEAL Boiler easily lasts through the longest winter night. There can be no fuel waste.

ARCO WAND Vacuum Cleaner—built into the house
You should know about our ARCO WAND Vacuum Cleaner, for dustless, complete cleaning of rooms, furnishings, etc. Sets in basement and cleans through iron suction pipe running to each floor. Easily put in OLD buildings. Fully GUARANTEED. Lasts as long as the building—like radiator heating. Send for catalog.

BRITISH INTEREST IS MADE APPARENT

By International News Service.

WASHINGTON, Nov. 9.—Commenting on the report of large and valuable concessions having been given to Lord Cowdray by President Huerta through British influence, Robert V. Pease, secretary of the American Legation, said:

"Sir Lionel Carden, British ambassador to Mexico, has been a friend of Lord Cowdray since the latter went into Mexico many years ago. He has been a close friend of the latter ever since."

"One of the principal complaints against the government of Mexico is the fact that the government is not a government of the people, but a government of the army. He has also called attention to the fact that the new government in Mexico is not a government of the people, but a government of the army."

OPPOSING ARMIES GIVE NO QUARTER

LAREDO, Tex., Nov. 9.—Warfare without quarter, with the opposing armies burning and dynamiting official and business buildings, residences, freight cars and other railroad property, has been waged at Monterey, Mexico, between the defending federalists and besieging constitutionalists. The fighting has been going on since the latter entered the city on Oct. 22, and the constitutionalists occupied a large portion of the city in the latter part of the month.

Many dead were left in the streets until a full in the fighting should afford time for burning the bodies. A view of Cuahutlan street, near the National railway station, where the conflict centered, showed an entire block destroyed by fire and cannonading, with numerous bodies in the ruins.

General Miguel, whose residence was one of the finest in North Mexico, was burned to death when the constitutionalists destroyed the house by fire. Constitutionalists captured the barracks of the first federalist battalion and used it for an arsenal, but lost it when a federal torpedo wrecked the building, killing many rebels. The north facade of the governor's palace was shot away. The property loss was said to be enormous. The railroad claim their damage will amount to \$7,000,000.

In the yards 600 cars, many loaded with merchandise, were burned. The roundhouse and more than twenty engines were destroyed. The loss of life was heavy, but exact figures were not given.

OVER HALF OF ALL SICKNESS CAUSED BY WEAKENED, CLOGGED-UP KIDNEYS

Hundreds Suffer From Kidney Trouble and Don't Know it. Backache, Bladder Disorders and Rheumatism Are Result.

It is a well recognized fact among physicians today that a greater part of all sickness can be avoided by keeping the kidneys working properly. This is even more important than for the bowels to move regularly.

The kidneys and bladder are the filters and sewers of the body, and they must filter the blood and keep it pure. When they fail to do this properly, you suffer with pains in the back or sides; have bladder or urinary disorders, lumbago, rheumatism, dizziness, nervousness, or feel tired and worn out. If you have any such symptoms, don't neglect yourself another day. Secure an original package of Croxone which costs but a trifle, take three doses a day, for a few days, and you will be surprised how entirely different you will feel.

This new effective preparation soaks right in and cleans out the clogged-up, inactive kidneys, so that they can filter out all the poisonous waste matter and uric acid and keep the blood pure. Croxone is truly a remarkable remedy for the prompt relief of kidney and bladder disorders. You will find it entirely different from anything you have ever used. It is so quick-acting and effectively prepared that it is practically impossible to take it without results.

Every druggist recommends it, and is authorized to return the purchase price if Croxone fails to give the desired results the very first time you use it.
